

## INFORMATION BULLETIN No. 283

### GARBAGE RECORD BOOK Amendment to Bulletin No. 277

Guidance and instructions for Barbados Recognised Organisations, Barbados Approved Nautical Inspectors, Ship Owners, Managers and Masters

In Section 1 of our Bulletin No. 277 it is stated that '*Barbados Maritime will be publishing new Garbage Record Books, which will include all amendments*'. While it was intended to produce hard copies of the Garbage Record Books, we have since learned that it is likely that amendments to the books will become necessary on a frequent basis.

In view of the impracticality of updating hard copies frequently, we have decided not to produce hard copies but to maintain and update the Garbage Record Books in central office digitally. Clients who wish to receive the current Garbage Record Book should apply to BMSR at [registry@barbadosmaritime.com](mailto:registry@barbadosmaritime.com) whereupon we will respond with that version by email.
