

**Application:** All ship-owners, operators, masters and officers of merchant ships, authorised Classification Societies and Nautical Inspectors.

Barbados Flag has previously allowed Barbados approved inspectors to authorise DMLC Part II documents on our behalf.

In view of feedback from clients and other factors, it has been decided that Barbados approved inspectors may no longer perform this work and that it must be left solely to Class in future.

Ship-owners and operators should note this change particularly as they will no longer be able to ask Barbados approved inspectors to authorize MLC or countersign the DMLC Part II.
